Index

Product description	p3-4
Recycling	p5
Assembly instructions Nova C Divider	p6-7

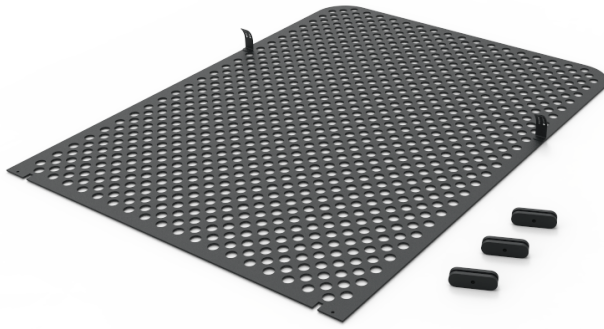

Curvature

Divider can be made to any curvature between 0-45 degrees, both concave and convex. Standard modules are straight and convex /concave 45 degrees.

Color & pattern

Standard or custom colors can be chosen as well as color mixes. The Divider comes with cut out holes for a see-through effect (custom patterns possible) or plain which gives a surface where a message or image can be applied.

Sheets, clips and small parts are made of steel and are sorted as metal.

Glides are made of PE and are sorted as plastic.
