Nova C Kids Modules

Nova C Kids Head section

The Nova C Kids Head 30° is a 30 degrees curved module where the last rib looks like a caterpillar head. This module provides 2 seats.

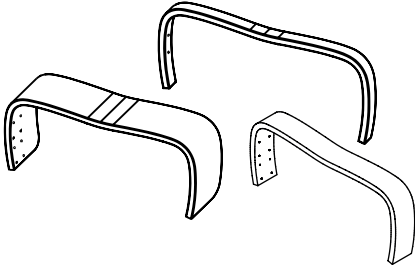

Nova C Kids Body

The Nova C Kids Body 30° is a 30 degrees curved module and provides 2 seats.

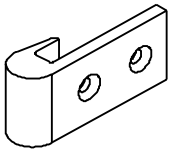

Recycling of parts

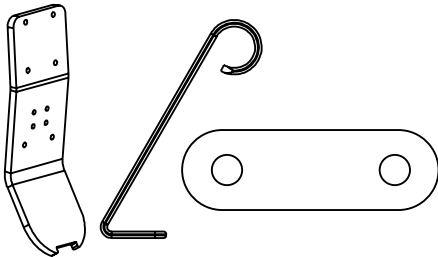

Wooden parts:

All versions of the ribs should be separated from the product and recycled as wood.

Plastic parts:

The glides are made from plastic and should be separated from the product and recycled as plastic.

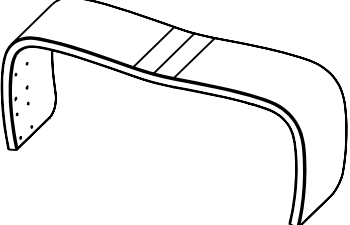

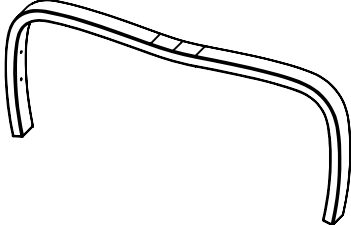

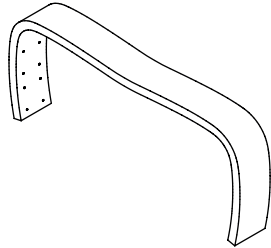

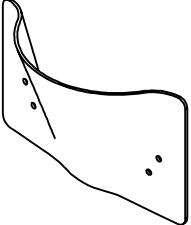

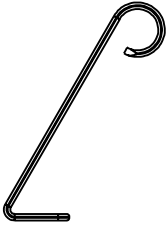

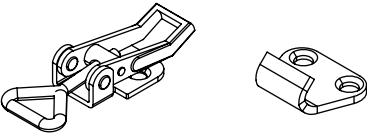

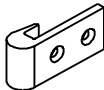

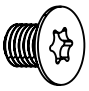

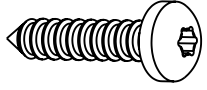

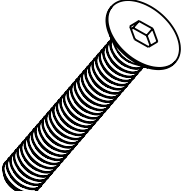

Steel parts:

The legs and all other small parts are made from steel and should therefore be separated and recycled as steel.
